

Hydra.  
The cost revolution.

**Save. Revolutionize. Improve.**

Hydra signals a turning point for the professional video communication sector. **Creating an extended and effective professional video communication network** is no longer limited to room-based endpoints and the Hydra software is able to drastically reduce the costs of network implementation. Thanks to constant commitment to R&D, Aethra can offer a technologically advanced solution at by far the most competitive price on the market. Hydra is the high performance yet low-price, dynamic yet professional solution.

**The new Aethra solution.**

#### Hydra. Features that make the difference.

1. The only system that does not necessitate a costly gateway. Enables a multi-conference configuration of up to 8-sites (6 with PC, 2 with endpoints) at by far the most competitive price on the market.
2. The only solution that can activate a multi-video conference calling both IP and ISDN endpoints directly from a PC.
3. The only solution that does not require external infrastructure for mixed ISDN and IP connections.
4. The only solution that can access the company LAN during a multi-videoconference with external firewall traversal.
